JULIUS-K9® has been one of the most successful companies on the European market of sport-, hobby- and service dog accessories for more than 15 years. During this time our company has become the leader brand in some of the states of the European Union. Our team has been working to create the perfect harmony between dog and dog owner in everyday and in work, even in the smallest details. The development, manufacturing and testing procedures of our products fulfil the European Union's requirements.

Development: JULIUS-K9 Bt., Sales: K9-Sport Kft.

Your partner:

2010 was a year of innovations for JULIUS-K9. The improvements on the K9-Powerharness (which was one of our most successful products on the market since 1997) exceeded all expectations.

The harness was redesigned close to perfection: improved comfort, safety and ergonomics with communicative appearance. This successful product, which now is in its top form in function and design, is the best for pets and service dogs alike. Ready for light walks or serious actions, used in many european countries for domestic and professional purposes.

IDC® (INNOVA DOG COMFORT) is the perfect solution:

- ➔ no more wrinkles on the harness or straps
- ➔ labels can be read from any angle

► Innovative design, sporty appearance ► breathable, skin friendly inner lining ► All Time Light® removable labels ► reflective chest strap and edge protection ► side bag fixing option ► safely fixed handles ► quality tested ► flashlight holders ►►►►

1. The reflective chest strap on the IDC harness is placed lower on the chestbone, so it does not pressure the dog's neck
2. The strap under the chest is rectangular and sporty, the buckle is now at a higher point of the body, so it does not effect the front leg's mobility
3. The saddle part of the IDC harness covers a smaller surface from the dog's side
4. The label of the IDC harness is fixed diagonally, it gives a better visibility from any angle
5. There is a new, safer solution to close the handle on every IDC harness from size 0
6. There are flashlight holders next to the handle on every IDC harness from size 0 (one holder) and from size 1 to size 4 (two holders)

IDC Powerharness

the perfect solution

Multifunctional IDC dog vest

Multifunctional swimming vest with removable floating foam pads. A great help for swimming, and useful for lifting the dog, because the foam pads are practical for pressure distribution (rehabilitation vest). If you remove the floating foam pads from their packets, you will have a neoprene jacket, which protects your dog from the rain, wind and cold. As a swimming vest it's practical help for hydro-therapy – with reducing or increasing the number of the floating pads you can change the level of exercises. With a strong handle and a ring for the leash it's easy to control or hold the dog. Highly recommended for those dog breeds (English and French Bulldogs) which are more challenged in swimming due to their physical abilities. Dog vest is supplied with two foam pads (for the chest and back part). Available in four sizes, the foam pads can be ordered even separately.

3 in 1

IDC[®] neoprene dog jacket

It offers effective protection on the cold days. The soft, waterproof, elastic material of the IDC neoprene dog jacket fits the body of the dog tightly. Its excellent thermal insulation capability is guaranteed by thousands of tiny air bubbles embedded in the neoprene material. It is a comfortable wear for dogs.

Its phosphorescent and reflective elements ensure high visibility.

It is very simple to put on: by means of two strong Velcro fasteners on the chest and under the belly.

TPP-2013 dog harness

An upgraded version of TPP "walking" dog harnesses of 2006

The world's easiest dog harness to put on. You just make two little movements and it is neatly stretching along your dog's chest, being gentle on the neck area while walking on a leash and ensuring an even pressure on the chest. It is the best solution for your daily walk. Don't forget to pick a luminescent (reflective or phosphorescent) side label for it. In addition to ensuring a safe walk, you can also spice up your own and any passer-by's life with it. One word about the prices: they are unbeatable!!!

1. a dog harness and a high visibility vest in one
2. you can put it on and take it off quickly and without stress
3. unlike a collar, it is gentle on the neck area
4. a replaceable Velcro label can be fitted to each side
5. unbeatable price/value ratio

**TALKING
POWER PRO**

Standard labels

Wish label

With a 'wish label' you can make your harness unique. You just need to find it out and to put it on the harness! The 'wish labels' (they can be fixed with Velcro) are available only with white letters.

You can order unique labels for the following harnesses:

- IDC-Powerharness, Baby1, Baby2, Mini-mini, Mini, size 0 (110 x 30 mm)
- IDC-Powerharness, size 1-4 (160 x 50 mm)
- IDC-Beltharness, Mini-mini, Mini, size 0 (110 x 30 mm)
- IDC-Beltharness size 1-3 (160 x 50 mm)

- K9-Powerharness, Baby 2, Mini-mini, Mini, size 0 (110 x 30 mm)
- K9-Powerharness size 1-3 (160 x 50 mm)

For any type of harness you'll get a fluorescent JULIUS-K9® label for free. It's easy to remove the brand label and replace it with another one, so you can order from more than 1000 different Velcro labels, and change it as you wish.

You can find the complete list here:
www.en.original-k9.de/logolist

Reflective **LED** light

Reflective LED-light for Julius-K9 harnesses: it makes your dog visible from distance even in the dark. It's waterproof, needs a coin cell battery, easy to turn on and off without opening it. Can be adjusted with Velcro to the harness' label field. Due to the flashing LED-lights and the reflective surface you can keep your eyes on your dog even in complete darkness. Works in low-power, energy saving mode.

Phosphorescent + reflective = All Time Light®

National flag labels

One of the spring seasons new products in 2012 are the labels with different countries national flags. They can be easily fixed on the label field of any K9- or IDC-Powerharness models.

Original
K9
POWERHARNESSES
since 1997

JULIUS-K9

Julius-K9 was the first company in Europe which had products - dog harnesses, protective equipments and clothings - for dog owners and professional dog trainers under the K9 brand. The company, which became well-known because of its dog harnesses, introduced some innovative technical solutions. In 2001 the manufacturer got the right to use 'Power' as a prefix for the harnesses which have been used with excellent results in real action situations by the Austrian police and fire service.

The **JULIUS-K9** Powerharnesses

The K9 Powerharnesses were developed in 1997 for professional use for service dogs. But the general public discovered these practical and durable harnesses soon, so they became really popular worldwide. The original K9 harness is a status symbol, a multifunctional 'talking' product and a visibility vest all together.

The most important harness accessories:

Removable side labels: more than 1000 standard labels and unique labels. They have informative and entertaining functions at daytime and visibility function at night.

Side bag fixing: side bags are practical for carrying documents or treats. Due to the special 3+1 fixing method some bags are suitable for bigger weights too.

Flashlight holder: Small flashlights can be attached to the harness, which help tracking the dog in the dark. These are essential for search and rescue exercises.

'Y'-belt: the special Julius-K9 chest straps can be fixed with Velcro and allow fixing different types of pressure distribution pads.

The best known is the so-called 'Y' belt and its enhanced versions: the IDC chestpad and the 'I'-belt.

K9-Powerharness, size 1, 2 & 3

►ÖKO-TEX inner lining ►reflective chest strap ►steel ring on the middle, diameter: 4 mm ►phosphorescent Velcro labels / Julius-K9 ►Anti-Catch System ►heavy-duty buckle ►flashlight holders ►sidebags ►►►►

K9-Powerharnesses are available in the following colors:

HARNESS ACCESSORIES

● Universal sidebag

Universal sidebags for every size of IDC® harness. It's an ideal solution for keeping documents, cell phone or small accessories of therapy work in safe. It's waterproof and easy to attach to the harness - by Velcro on the sides and by special oval rings to the chest strap.

Put the metal oval rings to the chest strap (you should open it for this), and then you can attach the small Velcro parts of the bag to the rings. The bag will be fixed safely this way.

Oval ring size: baby-mini 30 mm, 0-4 sizes 50 mm. Available in pairs, with phosphorescent Julius-K9 Velcro label (110x30 mm) and rings in two different sizes.

HARNESS ACCESSORIES

IDC®-chestpad

IDC chestpad is a practical solution for walks, work, travelling or for dogs which have a tendency to escape from the harness. Can be attached to the chest strap with Velcro.

IDC®-chestpad

Side bags

Side bags

The side labels of K9 harnesses look cool even on side bags. Side bags contain reflective parts as an innovation. To avoid accidents these bags have streamlined shape toward the direction of moving. Recommended for carrying dog clothing, training equipments, treats, documents, etc. Made of water-repellent material.

Herbal pad for IDC® dog harness

with calming, anti-stress effect or with insect repellent, anti-parasite effect

It does not contain any chemicals, doesn't cause allergy.

Herbal fragrances of the insect repellent pad help keep away flies, mosquitos and ticks. Herbal fragrances absorbed through the dog's skin into the circulation system and have an anti-parasite effect.

Adhesive to the inner liner of an IDC harness.

Herbal pad for IDC® dog harness

Flashlights for IDC harnesses

Practical accessories for IDC harnesses from size 0 to size 4. The size 0 has one flashlight holder, which is located on the outer side of the handle. On the harnesses from size

1 to size 4 there are two holders, one on the outer and one on the inner side of the handle. In any case the weight distribution is optimal.

Flashlight for IDC harnesses

Descending- and carrier harness

New features

- placement of transverse straps has been improved to perfection
- optimized handle placement and shape
- water-repellent
- pressure distribution material
- buckles on the abdomen and chest

Rehabilitation harness

For dogs who became temporary or permanently disabled. The shoulder part and hip part (front and back piece) are also available separately. The front part is also usable as a comfortable harness. Made of German, Swiss and Austrian materials, by small manufactures of EU

Special harnesses by **JULIUS-K9**

Jogging belt

► Available as a loose product too. If there are any other family members who would also like to use it, it would be more practical to order not just one, but more.

Jogging leash

► Available in three different strengths depending on the dog's weight:
10-20 kg, 15-25 kg and 25-70 kg.

Quick release

► The quick releaser is especially preferred by service dog owners, because it's easy to let the dog free in a couple of seconds. It can be attached to a 40-50 mm wide belt or to the jogging belt.

Jogging belt bag

► K9 bag for K9 jogging belts with two pockets for any small objects, so it's big enough for any type of smart phone. Size: 12 x 16 cm

JOGGING *SET*
K9 Sport

Jogging belt with leash

For jogging, nordic skiing or careless walking – with free hands. Padded belt with reflective stripes, leash and quick releaser. Made of soft, comfortable material. The full length of the leash is 1,9 m. In order to protect your hands and waist, the leash is available with 3 different strengths of inside rubber.

Super-grip leash

This leash was made of strong but soft-touching textile. The special combination with rubber ensures the optimal grip to lead the dog. It's practical even in rain or wet conditions - for walks, sport activities or trainings.

IDC® caoutchouc leash

► a special combination of rubber and leather-like plastic ► light and unbreakable ► comfortable to hold ► durable, elastic, water-proof and does not slip ► weight capacity up to 130 kg ►►►

IDC® leash

► phosphorescent ► available with or without handle ► different length and width ► durable, comfortable and practical ► 25 mm-the strongest from our leashes ►►►

IDC® Lumino leash

► a special combination of rubber and leather-like plastic ► light and unbreakable ► comfortable to hold ► durable, elastic, water-proof and does not slip ► weight capacity up to 130 kg ►►►

Leather leash

► traditional, strong leash made of full leather ► real saddler masterpiece ► comfortable grip, durability ► available in various lengths and widths ►►►

IDC®
LUMINO
leash is available from
2013

Collars

ECO-leather collars

A special combination of textile strap, covered by 2mm thick fat leather and sponges for pressure distribution, resulted an extra soft but very strong leather collar - with a tested static loading limit above 400 kg. **Elérhető 2 féle méretben.**

IDC luminous collar

A simple but practical collar made of strong, easy-to-clean material, with tested heavy-duty buckles. It contains special fluorescent threads and has a reflective logo, for the perfect safety and good visibility of the dog. It can be used with any type of leash, but of course the most harmonic and elegant combination is with an IDC leash. **Elérhető 3 féle méretben.**

K-9 collar with handle and safety lock

NEW
colors
in
2013

K9 collar with handle and safety lock. This new version of classic collars has some innovative solutions for making everyday life and dog owner's work better. With closable handle on the middle you can hold and lift your dog safely, without risking any injuries. It has a heavy-duty buckle and safety lock for perfect security. Due to its material it is easy to clean and will not deform. It is easy to fix any label to the Velcro covered surface - so from now on your dog can wear cool labels not only on his harness, but even on his collar.

K-9 collar fényvisszaverő csíkkal

Kialakításában- és funkcióiban megegyezik a feliratos változattal, azonban itt a nyakörv teljes hosszában jólláthatósági fényvisszaverő csík került. A csat biztonsági rögzítővel erősített, a fogó tépőzárral rögzíthető.

Leather muzzle - extra strong

► Traditional, strong leather muzzle, a real saddler masterpiece. Material: black bull leather, 5 mm. Available from medium to large size. Recommended for service dogs as well

Leather muzzle - light

► This light leather muzzle is made of 2,5 mm thick fat leather straps. It is light and soft, ideal as a first muzzle for your dog. Available from mini to middle size.

Leather muzzle - strong

► A closed muzzle made from strong cow leather (4 mm). It's the best protection against bite accidents, but it's breezy, and designed by the basic needs of the dog. It's ideal for service dogs, working dogs or sport dogs, but it's useful even for a stronger pet. Available in three different sizes, for middle-sized and big dogs.

Leather muzzle POLICE

► Developed specially for service dogs, for protective works. This handmade muzzle has a metal strenghtening on the most used surfaces. It has neoprene liner over the nose, which makes it comfortable for the dog. The muzzle also has safety buckle and a quick releaser, so it's extremely easy to remove.

Leather muzzle - half opened

► A practical training equipment for service dogs. It's well-fixed and has an inner liner at the nose for the optimal comfort of the dog. It's ideal for protection trainings, recommended for bite work on protective clothes.

JULIUS-K9 Muzzles

Metal muzzle

► Specially designed for the Austrian and Hungarian service dog units. The padding at the nose is made of breezy or closed cell-structured material, which is protecting the dog from injuries and infections. ►►►►
